Pop-Up Waste Assembly

Tailpiece with captured, free rotating connector nut. [Fig. 1] Pat. Pending

- **Saves Time for the Professional!**
- **Installation made simple**

Revolutionary Design

- **Rotating Connector Nut**
Eliminates the difficulty of positioning the linkage port alignment. No more fine threaded tailpiece which is easily cross threaded. Quick and easy connection. [Fig. 1]

- **All Units Are CSA Approved**
- **All Brass Two Piece Design**

One less connection & one less leak problem than the conventional three piece unit.

- **Gasket Washer With Retainer Lip**

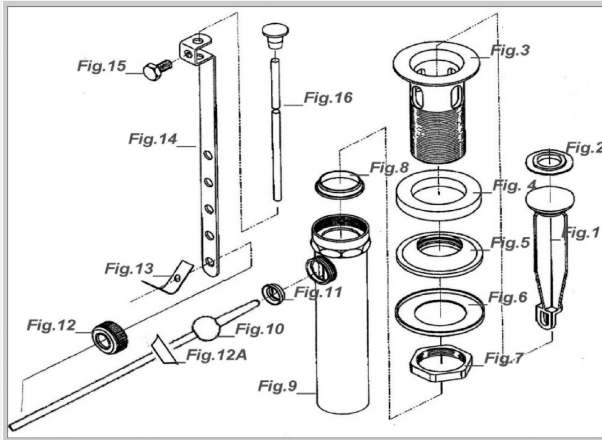

When the gasket is compressed, it is forced to hug the threaded seat portion ensuring a leak proof seal. [Fig. 3] Pat. Pending

- **Poly Tailpiece Washer**

A sure seal without the use of pipe joint compound. No messy clean up. Fast easy connection. [Fig. 4]

Prove it to yourself!!! Install one.
